Hampton by Hilton lands at Bristol Airport

28 February 2017

Hilton's Hampton by Hilton has unveiled its newest property at Bristol Airport.

The 201-room hotel, the first to be based at the airport, is located 250m from the terminal and marks another milestone in the company's airport journey, with the brand now featuring more than 400 airports hotels worldwide.

Simon Vincent, the hotel group's executive vice president and president, Europe, Middle East and Africa, said: "More than seven and a half million passengers pass through the doors of Bristol Airport every year, and we're now offering travellers a convenient and great value accommodation option on its doorstep.

"This opening also marks an important landmark for us as one of the first hotels in our portfolio globally to be completed using an innovative modular construction technique – paving the way for further expansion in the UK and internationally."

The company's signature free, hot breakfast is included with every stay, while a 24-hour convenience hub with a selection of snacks and drinks for purchase is available to all guests. The hotel is also an ideal accommodation option for business travellers, offering free Wi-Fi, two meeting rooms, a 24-hour fitness centre and a business centre. Guests with long airport layovers can take advantage of the hotel's day-rate option, starting from £70.
